

JCT812TA 12A SCR

Rev.A.1.1

JCT812TA silicon controlled rectifier is specifically designed for medium power switching and phase control applications. High current density due to mesa technology; SIPOS and Glass Passivation technology used has reliable operation up to 125 °C junction temperature. Low I_{GT} parts available. From all three terminals to external heatsink, JCT812TA provides a rated insulation voltage of 2500 V_{RMS} , complying with UL standards (File ref: E252906). Package TO-220A is RoHS compliant.
